

Investment Banking Document Platform

Requirements Specification v1.0 | 2026-04-25

1. Background

Current pain points in investment banking document management:

- Documents stored across multiple locations, hard to find
- Low efficiency when responding to regulatory inspections
- No version control, hard to track changes
- No unified naming conventions

Frontend: Vue 3 + Element Plus

Backend: Spring Boot 3

Storage: MinIO + PostgreSQL

Search: Elasticsearch

OCR: PaddleOCR

May 2026 - Requirements Review

Jun 2026 - System Design

Jul-Aug 2026 - Development

Sep 2026 - Testing

Oct 2026 - Launch
